24. INDUSTRY AND BUSINESS OF THE COMPANY

I. INDUSTRY STRUCTURE & DEVELOPMENTS

i. Introduction

Non-banking Finance Companies (NBFCs) form an integral part of the Indian financial system. They play an important role in nation building and financial inclusion by complementing the banking sector in reaching out credit to the unbanked segments of society, especially to the micro, small and medium enterprises (MSMEs).

The NBFC Sector in India has undergone a significant transformation over the past few years. It has come to be recognized as one of the systemically important components of the financial system and has shown

consistent year-on-year growth. NBFCs play a critical role in the core development of infrastructure, transport, employment generation, wealth creation opportunities, and financial support for economically weaker sections; they also make a huge contribution to state exchequer.

Their contribution to the economy has grown substantially from 8.4% in 2006 to above 14% in March 2015. In terms of financial assets, NBFCs have recorded a healthy growth at Compound Annual Growth Rate (CAGR) of 19% over the past few years constituting 13% of the total credit in the economy and is expected to reach nearly 18% by 2018-19.

ii. Regulatory Changes

NBFCs operate under certain regulatory constraints, which put them at a disadvantage vis-à-vis banks. The Reserve Bank of India released the 'Revised Regulatory Framework for NBFCs on November 10, 2014 which broadly focuses on strengthening the structural profile of NBFC Sector, wherein focus is more on bringing Regulatory Framework for NBFCs in line with banks in a phased manner and safeguarding of the depositors' money.

According to the new guidelines, NBFCs will require higher minimum capital, have less time to declare bad loans, and a board-approved fit and proper criteria for appointment of Directors. According to regulations applicable till March 31, 2014, an asset was classified as non-performing when it has remained overdue for six months or more, compared with 90 days for banks. The new norms are already in force and has reduced the period for classifying an asset as non-performing when it has remained overdue for 5 months, till March 31, 2016 and remaining in a phased manner so that the norms are at par with banks by March 31, 2018.

Similarly, provisioning for standard assets, which was 0.25 per cent till March 31, 2015, is proposed to be increased to 0.40 per cent by March 2018 onwards, again, in line with banks. The regulator has also tightened the corporate governance and disclosure norms for NBFCs.

ANNEXURE VII**MANAGEMENT DISCUSSION AND ANALYSIS****A. Industry Structure & Developments**

Non-banking Finance Companies (NBFCs) form an integral part of the Indian financial system. They play an important role in nation building and financial inclusion by complementing the banking sector in reaching out credit to the unbanked segments of society, especially to the micro, small and medium enterprises (MSMEs).

The NBFC Sector in India has undergone a significant transformation over the past few years. It has come to be recognized as one of the systemically important components of the financial system and has shown consistent year-on-year growth. NBFCs play a critical role in the core development of infrastructure, transport, employment generation, wealth creation opportunities, and financial support for economically weaker sections; they also make a huge contribution to state exchequer.

Their contribution to the economy has grown substantially from 8.4% in 2006 to above 14% in March 2015. In terms of financial assets, NBFCs have recorded a healthy growth at Compound Annual Growth Rate (CAGR) of 19% over the past few years constituting 13% of the total credit in the economy and is expected to reach nearly 18% by 2018-19.

B. Opportunities & Threats

NBFCs have emerged as the largest net receiver of funds from the rest of the financial system. According to the Financial Stability Report, 2015, scheduled commercial banks (SCBs) have the highest exposure to NBFCs at ₹ 1,927 billion, followed by asset management companies managing mutual funds (AMC-MFs) at ₹1,376 billion and insurance companies at ₹ 1,064 billion (as of September 2015).

The RBI has cut repo rate by 75 basis points (bps) this year. The repo rate now stands at 6.75% (as on 31st March, 2016), the lowest in five years since March 2011. However, even after reduction of Repo Rate by RBI, banks have not been able to pass on the benefit to the customers. Rising NPA levels have put pressure on the margins of banks as more and more interest-earning assets are slipping into the non-performing class. Even though banks are not able to pass down the lower interest rates, they will still continue to be the largest source of funding for NBFCs. However, the growing reliance of NBFCs on bank funding requires additional safeguards to be introduced by RBI to contain systemic risks.

As per the recent World Economic Outlook brought out by IMF, the growth in Indian Economy is projected to notch up to 7.5% in 2016-17. Growth will continue to be driven by private consumption, which has benefited from lower energy prices and higher real incomes. With the revival of sentiments and pickup in industrial activity, a recovery of private investment is expected to further strengthen growth.

C. Segment wise performance

The total revenue comprises of mainly interest received from Lending Operations and Management fees received from management of funds. During the year Income from lending operations was ₹ 62.74 Crore out of total income of ₹ 78.53 Crore and ₹ 7.76 crore was received from management of funds. Other income includes profit on sale of Shares/Units and other miscellaneous income.

D. Industry Outlook

NBFCs have been playing an important role in the Indian financial sector and this role assumes even greater significance at a time when banking institutions are focusing on resolving bad loans issue and cleaning up

their balance sheets. In the current context, NBFCs can support the drive towards promoting inclusive growth, by catering to diverse financial needs, especially of MSMEs and individuals.

As per Financial Stability Report (FSR), December, 2015 edition, as of September 30, 2015, there were 11,781 Non- Banking Financial Companies (NBFCs) including both deposit taking (212) and non- deposit accepting (NBFC-ND-11,659). During the year 2015-16, RBI issued series of guidelines applicable to NBFC-ND-SI which have material impact on prudential accounting, classification and provisioning in order to gradually aligning the NBFC-ND-SI with the norms applicable for Banks.

NBFC play a critical role in the core development of infrastructure, transport, employment generation, wealth creation opportunities, and financial support for economically weaker sections; they also make a huge contribution to state exchequer. NBFCs operate under certain regulatory constraints, which put them at a disadvantage vis-à-vis banks. While there has been a regulatory convergence between banks and NBFC on the asset side, on the liability side, NBFCs still do not enjoy a level playing field.

With the number of players having been substantially reduced consequent to the stricter entry point norms and imposition of prudential norms by RBI, the market is large enough to meet the needs of existing NBFCs and new entrants like banks and other financial institutions. With the ongoing stress in the public sector banks due to mounting bad debt, their appetite to lend (especially in rural areas) is only going to deteriorate, thereby providing NBFCs with the opportunity to increase their presence.

E. Risks and concerns

Financial institutions (FI's) involved in lending operations, are susceptible to risks arising out of changes in the credit quality of the borrowers or counter parties. In pursuance of RBI guidelines, for the purpose of identification, evaluation and mitigation of strategic, operational, regulatory and external risks, a Risk Management Committee of the Directors was constituted by the Board of Directors. However considering the size of the Company, no Risk Management Policy has been formulated.

The market and liquidity risk is monitored by the Asset Liability Committee of Executives (ALCO) through analysis of dynamic liquidity position, structural liquidity gaps and interest rate sensitivity positions. In the future, risk management is expected to play a more prominent role because of liberalization, deregulation and global integration of financial markets, which would add newer dimensions to risks faced by Banks and NBFC's.

Your Company would continue to work on various initiatives aimed at strengthening credit risk standards, post sanction monitoring of the portfolio to mitigate any adverse impacts on the loan portfolio of your Company. Your Company would also strive to develop a strong culture for risk management and awareness within the organization.

F. Internal control systems and their adequacy

Your company has in place adequate system of Internal Control commensurate with the size of its operation. Internal Audit is being conducted by an Independent Chartered Accountant Firm duly appointed by the Board on recommendation of the Audit Committee. All the internal audit reports along with management reply and corrective measures, if any have been regularly placed and reviewed by the Audit Committee.

G. Discussion on Financial Performance with respect to operational performance

During the year ended 31st March, 2016 IFCI Venture has earned net profit of ₹ 2116.46 lakh compared to net profit of ₹ 2492.95 lakh during the previous year. It may be observed that though the income increased by ₹ 1457 lakh as compared to previous year, PBT was lower by ₹ 501 lakh due to increase in administration

expense, financial expense and provision for bad & doubtful debts. The total income increased by 19% from ₹ 7853 lakh in the year ended 31st March 2015 to ₹ 9310.30 lakh in the year ended 31st March 2016.

Your Company has also paid interim dividend @ 10% for the year ended 31st March, 2016.

It may be observed that the overall financial performance of the Company during the year 2015-16 in comparison to the previous year has improved due to increase in interest income and lower provisioning.

The major highlights of operations for the year ended 31st March, 2016 are as under:-

	(₹ in lakh)	
Particulars	2015-16	2014-15
Operations		
Sanction - Loan / Investment	41,350	42,100
Disbursement - Loan / Investment	34,296	29,836
Borrowings		
Loan /Bonds	20,000	17,500

The sanctions and disbursements were lower than the budget. The main focus was on recovery and monitoring of existing portfolio.

H. Resource Mobilization

Keeping in place with the funds requirement for loan portfolio, your company mobilized funds to the tune of ₹ 20,000 lakh from banks (₹ 17,500 lakh previous year) at rates ranging from 10.55% to 10.90% p.a.

The total borrowings of your company stood at ₹ 50,393 lakh as at March 31, 2016 as compared to ₹ 37,754 lakh as at March 31, 2015 comprising of bank borrowings and bonds.

I. Material Developments in Human Resources/ Industrial Relations front, including no. of people employed.

During the year, recruitment of 8 professionals were made as consultants.

ANNEXURE – B TO THE INDEPENDENT AUDITOR’S REPORT OF EVEN DATE ON THE FINANCIAL STATEMENTS OF IFCI VENTURE CAPITAL FUNDS LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of **IFCI VENTURE CAPITAL FUNDS LIMITED** (“the Company”) as of 31st March, 2016 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of

records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
